ANALOGY

PART 1

What is Analogy?

Analogy means finding a similar relationship between two pairs of words, letters, or numbers.

In an analogy question, one relationship is already given. Your task is to identify the same relationship in another pair.

Why is Analogy Important?

- One of the easiest scoring topics in Reasoning.
- Tests logical thinking and observation.
- Frequently asked in Punjab Police, PSSSB, SSC and Banking exams.
- Most questions can be solved within **15–30 seconds** if the relationship is identified correctly.

Basic Formula

Think in this order:

First Pair → Find Relationship → Apply Same Relationship → Select Correct Answer

Example:

Mathematics : Numbers :: History : ?

Relationship:

Mathematics studies **Numbers**

Similarly,

History studies **Events**

Answer → Events

How to Solve Analogy Questions

Always ask yourself these questions one by one:

Step 1

What is the relationship between the first two words?

Step 2

Is the relationship about:

- Place?
- Person?
- Profession?
- Function?
- Part?
- Opposite?
- Similar meaning?
- Group?
- Sound?
- Young one?
- Capital?
- Currency?

Step 3

Apply exactly the same relationship to the third word.

Golden Rule

Never compare the meanings separately.

Always compare **the relationship**.

Example

Doctor : Patient

Wrong Thinking

Doctor treats disease.

Correct Thinking

Doctor works for Patient.

Most Common Relationships Asked in Exams

Relationship	Example
Country → Capital	India → New Delhi
State → Capital	Punjab → Chandigarh
Country → Currency	India → Rupee
Instrument → Measurement	Thermometer → Temperature

Quantity → Unit	Force → Newton
Individual → Group	Soldier → Army
Animal → Young One	Cow → Calf
Male → Female	Lion → Lioness
Animal → Sound	Lion → Roar
Animal → Movement	Duck → Waddle
Dwelling Place	Dog → Kennel
Profession → Workplace	Chef → Restaurant
Profession → Person Served	Doctor → Patient
Material → Product	Pulp → Paper
Subject → Study	Botany → Plants
Synonym	Vigilant → Alert
Antonym	Giant → Dwarf
Part → Whole	Arc → Circle
Object → Function	Soap → Wash

These relationship types form the majority of analogy questions in competitive examinations.

Word Analogy

Simple Meaning

A word analogy compares **two words** having a particular relationship.

You must find another word having the **same relationship** with the given word.

Example 1

Mathematics : Numbers :: History : ?

Relationship

Subject → Studies

Answer → Events

Example 2

Botany : Plants :: Entomology : ?

Relationship

Branch of study → Subject studied

Answer

Insects

Example 3

Doctor : Patient :: Lawyer : ?

Relationship

Professional → Person Served

Answer

Client

Example 4

Chef : Restaurant :: Druggist : ?

Relationship

Profession → Workplace

Answer

Pharmacy

Example 5

Needle : Thread :: Pen : ?

Relationship

Required material for working

Answer

Ink

Common Mistakes Students Make

Mistake 1

Comparing meanings instead of relationships.

Mistake 2

Choosing a word that is related but not in the **same way**.

Mistake 3

Ignoring the order.

Example

Doctor : Patient

is **not** the same as

Patient : Doctor

Mistake 4

Using personal knowledge instead of the given relationship.

Exam Strategy

While solving every analogy question, follow this order:

1. Read the first pair carefully.
2. Identify one clear relationship.
3. Ignore unnecessary meanings.
4. Apply the same relationship to the third word.
5. Eliminate wrong options.
6. Select the exact match.

Memory Tricks

Trick 1

Find the Relation, Not the Meaning.

Learn from someone who has already achieved what you are preparing for.

Trick 2

One Pair = One Logic

Never use two different logics in one analogy.

Trick 3

Always remember:

Relationship First → Answer Later

Quick Revision (2 Minutes)

- Analogy = Similar Relationship
- Find Relation First
- Apply Same Logic
- Country → Capital
- State → Capital
- Country → Currency
- Instrument → Measurement
- Quantity → Unit
- Subject → Study
- Profession → Workplace
- Profession → Person Served
- Material → Product
- Part → Whole
- Group Name
- Young One
- Male → Female
- Animal → Sound
- Animal → Movement
- Synonym
- Antonym

Important Word Relationships (Most Asked in Exams)

Competitive Exams: Punjab Police, Punjab Police SI, PSSSB, Punjab PCS, SSC, Banking, Railways, CDS, CAPF

1. Country → Capital

Simple Explanation

Learn from someone who has already achieved what you are preparing for.

Every country has an **administrative capital** from where the government works.

In analogy questions, the examiner gives a country and asks its capital (or vice versa).

Most Important Countries and Capitals

Country	Capital
Afghanistan	Kabul
Australia	Canberra
Austria	Vienna
Bangladesh	Dhaka

Bhutan	Thimphu
Denmark	Copenhagen
India	New Delhi
Indonesia	Jakarta
Iraq	Baghdad
Portugal	Lisbon
Sri Lanka	Colombo
USA	Washington

Exam Pattern

India : New Delhi :: Bangladesh : ?

Answer → Dhaka

PYQ Focus

Questions are frequently asked from:

- India
- USA
- Bangladesh
- Bhutan
- Indonesia
- Portugal

2. State → Capital

Simple Explanation

Every Indian State has its own capital city.

These are frequently asked in State-level competitive examinations.

Important States and Capitals

State	Capital
Gujarat	Gandhinagar
Himachal Pradesh	Shimla
Karnataka	Bangalore*
Maharashtra	Mumbai

Odisha	Bhubaneshwar
Tamil Nadu	Chennai

Note: The uploaded source lists **Bangalore** for Karnataka; these notes follow the source.

Exam Pattern

Maharashtra : Mumbai :: Gujarat : ?

Answer → Gandhinagar

Most Important for Punjab Exams

- Himachal Pradesh
- Gujarat
- Maharashtra
- Karnataka
- Tamil Nadu

3. Country → Currency

Simple Explanation

Every country uses a specific currency for buying and selling.

Remember the **country–currency pair**, not the currency alone.

Important Countries and Currencies

Country	Currency
India	Rupee
Argentina	Peso
China	Yuan
Iraq	Dinar
Kuwait	Dinar
Netherlands	Guilder
Spain	Peseta
Thailand	Baht

Frequently Confused

Question	Correct Answer
----------	----------------

China	Yuan
Thailand	Baht
Iraq	Dinar
Kuwait	Dinar
Argentina	Peso

Exam Pattern

India : Rupee :: China : ?

Answer → Yuan

4. Instrument → Measurement

Simple Explanation

Scientific instruments are made to measure a particular quantity.

This is one of the **highest scoring analogy topics**.

Most Important Instruments

Instrument	Measures
Ammeter	Electric Current
Anemometer	Wind
Balance	Mass
Barometer	Pressure
Hygrometer	Humidity
Odometer	Speed*
Scale	Length
Screw Gauge	Thickness
Seismograph	Earthquakes
Sphygmomanometer	Blood Pressure
Taseometer	Strains
Thermometer	Temperature

Note: The uploaded source pairs **Odometer** → **Speed**. These notes retain the source mapping.

Exam Pattern

Thermometer : Temperature :: Hygrometer : ?

Answer → Humidity

5. Quantity → Unit

Simple Explanation

Every physical quantity has a standard unit.

Questions are usually asked by replacing either the quantity or its unit.

Important Units

Quantity	Unit
Angle	Radian
Area	Hectare
Conductivity	Mho
Energy	Joule
Force	Newton
Length	Metre
Luminosity	Candela
Mass	Kilogram
Potential	Volt
Pressure	Pascal
Volume	Litre
Work	Joule

Most Repeated Units

Unit	Quantity
Newton	Force
Joule	Energy, Work
Volt	Potential
Pascal	Pressure
Kilogram	Mass
Metre	Length

Exam Pattern

Force : Newton :: Pressure : ?

Answer → Pascal

Quick Revision (2 Minutes)

- India → New Delhi
- Bangladesh → Dhaka
- Bhutan → Thimphu
- USA → Washington
- Portugal → Lisbon
- China → Yuan
- Thailand → Baht
- Iraq → Dinar
- Force → Newton
- Pressure → Pascal
- Length → Metre
- Mass → Kilogram
- Energy → Joule
- Temperature → Thermometer
- Humidity → Hygrometer
- Current → Ammeter
- Wind → Anemometer
- Blood Pressure → Sphygmomanometer
- Thickness → Screw Gauge
- Earthquakes → Seismograph

6. Individual → Group

Simple Explanation

A **group name** is the collective name given to a collection of people, animals, or things.

These questions are very common in competitive exams.

Important Collective Nouns

Individual	Group
Artist	Troupe
Bees	Swarm
Cattle	Herd
Chicken	Brood
Drawers	Chest
Fish	Shoal
Flowers	Bouquet
Geese	Gaggle
Goods	Stock
Grapes	Bunch

Man	Crowd
Ministers	Council
Musicians	Band
Nomads	Hoarde
Pilgrims	Caravan
Players	Team
Pupils	Class
Rioters	Mob
Robbers	Gang
Riders	Cavalcade
Sailors	Crew
Sheep	Flock
Singers	Chorus
Soldiers	Army
Termites	Colony

Exam Pattern

Soldiers : Army :: Players : ?

Answer → Team

7. ANIMAL → YOUNG ONE

Simple Explanation

Every animal has a specific name for its young one.

Questions are generally direct and easy scoring.

Learn from someone who has already achieved what you are preparing for.

Important Animal & Young One

Animal	Young One
Bear	Cub
Butterfly	Caterpillar
Cat	Kitten
Cockroach	Nymph
Cow	Calf

Deer	Fawn
Dog	Puppy
Duck	Duckling
Frog	Tadpole
Hen	Chick
Horse	Colt / Filly / Foal
Insect	Larva
Lion	Cub
Man	Child
Sheep	Lamb
Stag	Fawn
Swan	Cygnets
Tiger	Cub

Exam Pattern

Cow : Calf :: Dog : ?

Answer → Puppy

8. Male → Female

Simple Explanation

Many animals and people have different names for males and females.

These questions are frequently asked in Punjab Police and SSC exams.

Learn from someone who has already
achieved what you are preparing for.

Important Male–Female Pairs

Male	Female
Bachelor	Spinster
Brother	Sister
Bull	Cow
Bullock	Heifer
Cock	Hen
Colt	Filly
Dog	Bitch

Drake	Duck
Earl	Countess
Fox	Vixen
Gander	Goose
Horse	Mare
Lion	Lioness
Lord	Lady
Master	Mistress
Monk	Nun
Nephew	Niece
Son	Daughter
Stag	Doe
Tutor	Governess
Wizard	Witch

9. Animal → Movement

Simple Explanation

Some animals have special names for the way they move.

Competitive exams often ask these as direct analogies.

Important Movements

Animal	Movement
Bear	Lumber
Bird	Fly
Cock	Strut
Donkey	Trot
Duck	Waddle
Eagle	Swoop
Elephant	Amble
Lamb	Frisk
Lion	Prowl
Owl	Flit
Rabbit	Leap

Exam Pattern

Duck : Waddle :: Lion : ?

Answer → Prowl

10. Animal / Thing → Sound

Every animal or object produces a particular sound.

These are among the easiest analogy questions.

Important Sounds

Animal / Thing	Sound
Bells	Chime
Camel	Grunt
Cat	Mew
Cattle	Low
Cock	Crow
Coins	Jingle
Crow	Caw
Dog	Bark (not listed in source)
Donkey	Bray
Drum	Beat
Duck	Quack
Elephant	Trumpet
Frog	Croak
Goat	Bleat
Hen	Cackle
Jackal	Howl
Leaves	Rustle
Lion	Roar
Monkey	Gibber
Mice	Squeak
Rain	Patter

Snake	Hiss
Sparrow	Chirp
Thunder	Roar

11. Individual → Dwelling Place

Every person or animal lives in a particular place.

Questions are usually direct and highly scoring.

Important Dwelling Places

Individual	Dwelling Place
Bee	Hive
Bird	Nest
Dog	Kennel
Eagle	Eyrie
Eskimo	Igloo
Hare	Burrow
Lion	Den
Mouse	Hole
Nun	Convent
Pig	Sty

Exam Pattern

Dog : Kennel :: Bee : ?

Answer → Hive

Learn from someone who has already achieved what you are preparing for.

Memory Tricks

Collective Nouns

"Fish Swim in Shoal"

Fish → Shoal

"Soldiers Form an Army"

Soldier → Army

"Players Make a Team"

Player → Team

Young Ones

"Dog Loves Puppy"

Dog → Puppy

"Cat Keeps Kitten"

Cat → Kitten

"Frog Starts as Tadpole"

Frog → Tadpole

Movements

"Duck Waddles"

Duck → Waddle

"Lion Prowls"

Lion → Prowl

HOUSE OF
ASPIRANTS

Learn from someone who has already
achieved what you are preparing for.

Sounds

"Lion Roars"

Lion → Roar

"Snake Hisses"

Snake → Hiss

Dwelling Places

"Dog in Kennel"

Dog → Kennel

"Bee in Hive"

Bee → Hive

"Lion in Den"

Lion → Den
